L.E.A.P Explanation

L.E.A.P. will allow qualifying students to participate in learning that focuses on real-world problem solving, inquiry-based learning, and developing more profound critical thinking skills. This experience will use in-depth projects outside of the traditional classroom, logical game-based learning, and hands-on experiences. Students will be encouraged to explore their passions and creativity as they work independently or in a small group setting.

Level one will take place on Tuesdays and Thursdays.

Level 2

Level two will take place on Monday, Tuesday, Wednesdays, and Thursdays.
